Evaluation Date

In evaluating the resident's performance, use as your standard the level of knowledge, skills and attitudes expected from the clearly satisfactory resident at this stage of training. **For any component that needs attention or is rated a 4 or less, please provide specific comments and recommendations on the back of the form.** Be as specific as possible, including reports of critical incidents and/or outstanding performance. Global adjectives or remarks, such as "good resident," do not provide meaningful feedback to the resident.
